

NEW ART SKIN CARE SYSTEM

Questions and Answers

Q: Why were the ART Skin Care System products reformulated? What were the changes?

A: Since the release of our early ART product formulations, new advances in natural skin care have been made. These advances allowed us to create new, improved ART products with more naturally derived ingredients, while still delivering the results you expect from Young Living. The new ART formulas combine pure, perfectly balanced essential oils with cutting-edge antiaging ingredients derived from plants. The new ART system also contains a proprietary, state-of-the-art blend of botanicals that preserves the ART products naturally, preventing the growth of germs, fungus, and mold.

Q: Why does the new ART Skin Care System include a cleanser, toner, and moisturizer?

A: Our original ART system included a cleanser, day cream, and night cream. The new system combines the benefits of the day and night creams in the ART Light Moisturizer and adds the ART Refreshing Toner. The ART Refreshing Toner is an improved version of our original ART Purifying Toner.

The three skin care steps in the new ART Skin Care System—cleansing, toning, and moisturizing—form the foundation of a good skin care regimen. Formulated with pure essential oils and other natural ingredients, these products prepare the skin and help it look its most radiant—both now and in the long term. Other products in our ART line offer additional targeted benefits for the skin.

Q: Who should use the ART Skin Care System?

A: The easy-to-follow ART Skin Care System is gentle enough for every skin type. This system is perfect for individuals wishing to implement a more natural and environmentally friendly skin care regimen infused with skin-nourishing essential oils.

Q: How will using the ART Skin Care System benefit me?

Our advanced ART Skin Care System reveals and preserves skin's natural beauty with pure essential oils and plant extracts carefully chosen to nurture and prepare the skin. Benefits of the regimen include:

- Softer, more supple skin
- A smoother, more even skin tone
- Reducing the appearance of fine lines, wrinkles, and pores, while improving elasticity
- And much more!

Q: Are the new ART products also available for sale individually?

Yes. The Gentle Cleanser, Refreshing Toner, and Light Moisturizer will be available individually and in the ART Skin Care System.
